Nontoxic natural rubber provides clean Removal even after extended use.

Tacky

Excellent initial tack and adhesive power at low & high temperatures.

Diverse

Wide variety of colour and sizes.

Our Vertical Integration System

Our state of the art facility offers a robust yet efficient production process. Every roll of tape first goes through the initial weaving process, then moves on to lamination, followed by coating, slicing & slitting, packaging, and film & extrusion which results in one of our high quality adhesive product.

Weaving

55 sets air jet weaving machines

Filming

1 line of 3 layer extrusion filming machine

Laminating

2 lines of PE laminating machines

Packaging

Guzzetti automatic shrink
Packaging machine

Slitting & Slicing

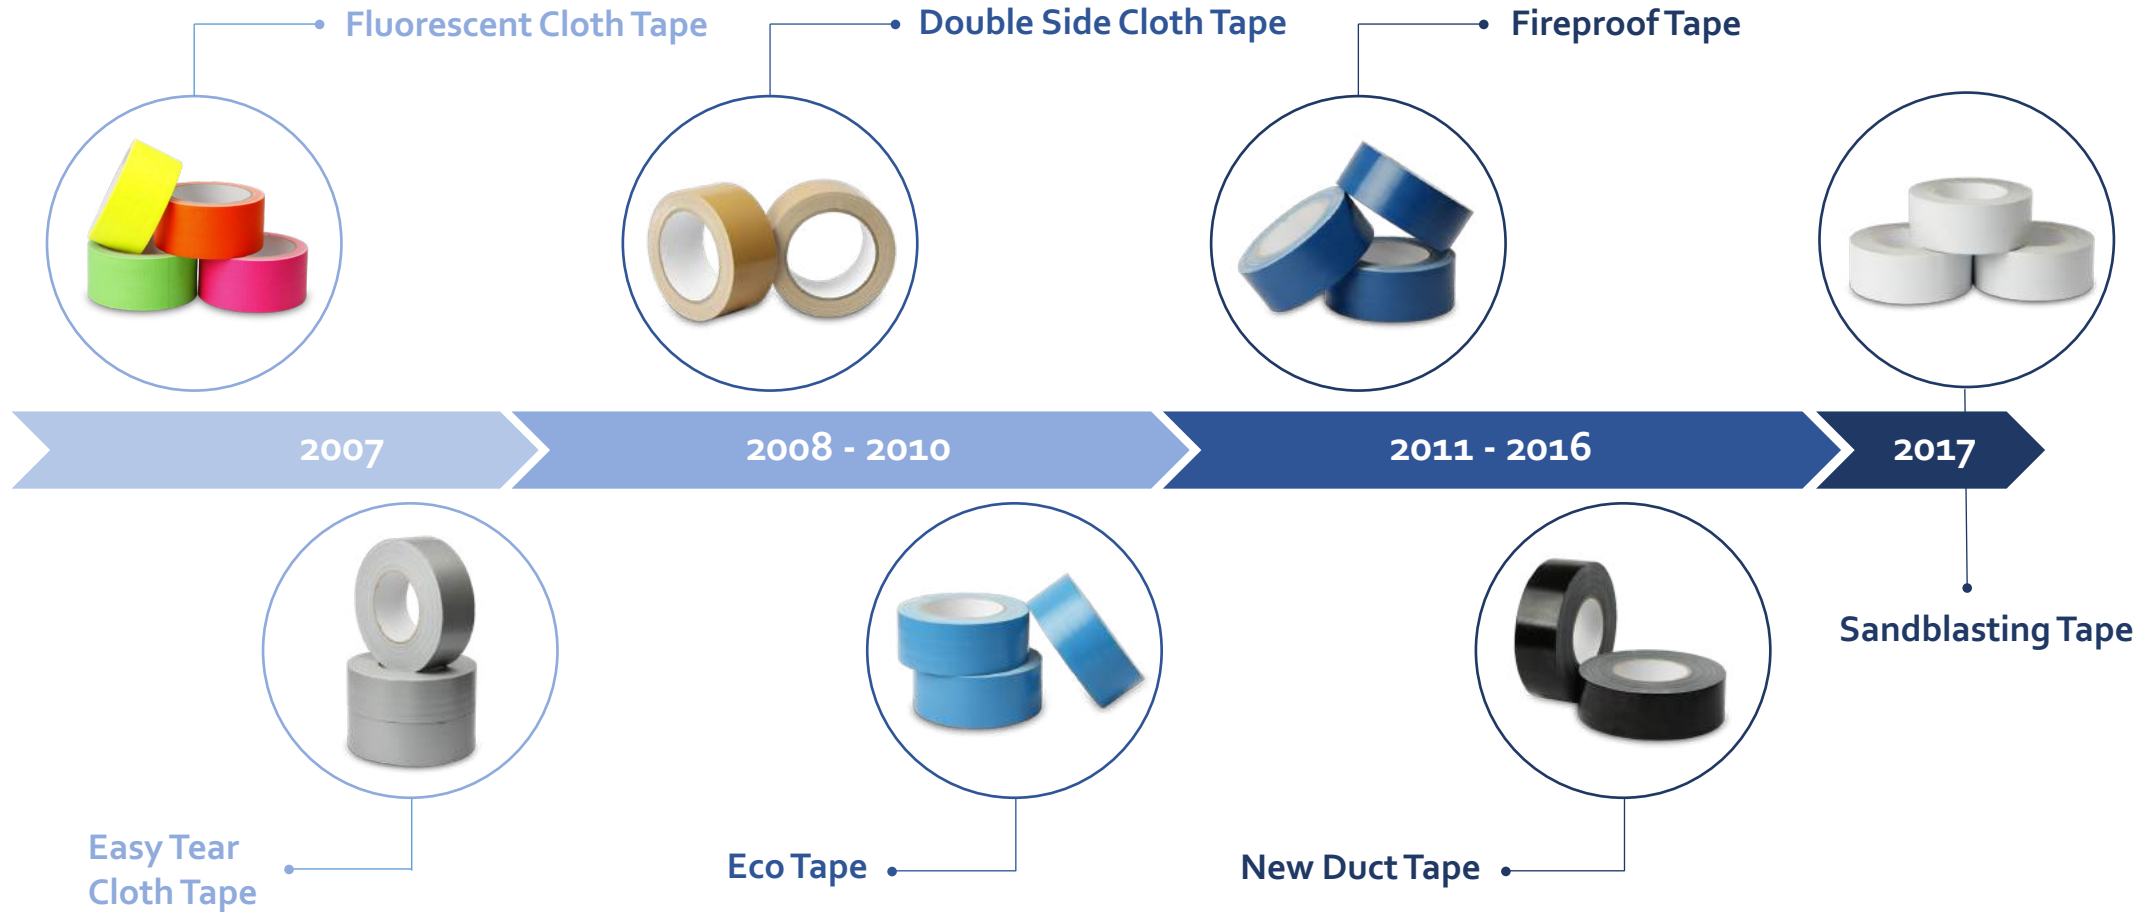

2 sets of Guzzetti tape slitter
& 20 sets of slicing machines

Coating

2 lines Banbury mixer & 2 lines of
solventless rubber adhesive coating systems

Development of New Product

Product Range of WithUs

Duct Tape

Can be used for General purpose, Fixing, insulation and cold pipe construction, packaging purpose Cloth tape

Cloth Tape

It can be used for packing steel and heavy materials, available for 50,70,80 mesh so, it can be used considering the tensile force depending on the application.

Specialty Tape

Various surface design available depending on its purpose of use. (military, warning, fluorescent etc.)

Masking & Pre-taped Drop Cloth

With UV-Resistant Adhesive applied, ultraviolet rays are cut off. It is mainly used in painting work because there is almost no residue left when peeled off (Not only for professional use but it is Easy to DIY work at home).
