WHO WE ARE...

We are the specialists for cosmetic preservatives and gelling agents.

DJC CO., LTD develops, produces and distributes raw materials for the cosmetic industry. Our technical preservatives protect sustainable water-based products against microorganisms.

DJC is one of the leading company in different kind of cosmetic ingredients in Korea. We are specialized in producing & refining all the product by running 2 factories and getting a good reputation from Korean domestic market.

We have manufactured Many ranges of cosmetic preservatives such as 1,2-Hexanediol & 1,2-Pentanediol & Ethylhexylglycerin. Also, we currently launch Dextrin Palmitate and much more than these.

We have put our all efforts to step in global cosmetic market and be a leading global company.

We provide high-quality products that maximize client satisfaction based on our years of expertise in research and development.

With the goal of becoming a global company, we will grow together with our international partners.
